Dear Hiring Team,

I am writing to express my interest in the AI/ML role at your organization. I recently completed my B.E. in Artificial Intelligence & Machine Learning and have hands-on experience building projects in Python, Machine Learning, Generative AI, RAG pipelines, AI Agents, FastAPI, LangChain, and LangGraph.

I am passionate about developing AI-driven solutions and continuously improving my technical skills through real-world projects. I have worked on AI applications involving LLM integration, retrieval-based systems, and backend AI workflows, which strengthened my problem-solving and development abilities.

I am excited about this opportunity because it aligns perfectly with my interest in Artificial Intelligence and practical AI system development. I am eager to contribute, learn from experienced professionals, and grow as an AI Engineer while delivering impactful solutions.

I have attached my resume for your reference. I would be grateful for the opportunity to discuss how my skills and enthusiasm can contribute to your team.

Thank you for your time and consideration.

Best Regards,
SHANTVEER KESTI

Dear Shantveer Keseti,

Thank you for sharing your resume and expressing interest in the AI/ML role at our organization. We appreciate the time and effort you have taken to highlight your academic background and hands-on experience in Artificial Intelligence and Machine Learning.

We will carefully review your application and consider it for the next steps in our hiring process. If your profile matches our current needs, our team will reach out to discuss further.

Thank you once again for your interest in this role.
