

REFeree'S REPORT: SUMMARY SHEET

International Journal of Computer Applications (IJCA) – ISSN 0975-8887
<https://ijcaonline.org>

Paper title:

Fast Task Adaptation Techniques in Machine Learning and Adaptive AI Systems.

#	EVALUATION CRITERIA	Score
1	Relevance of Topic	4
2	Scholarly Quality	5
3	English Usage	5
4	Use of Theory	6
5	Novelty and Originality of the idea	4
6	Technical Content and Correctness	5
7	Conclusions	5
Total Score % (out of 7)		69.39

Recommendations

☐ ACCEPT	Accept (without qualification): 75-100%
☒ ACCEPT WITH MINOR REVISIONS	Accept with minor revisions: 55-75%
☐ ACCEPT WITH MAJOR REVISIONS	Accept with major revisions 35-54%
☐ REJECT	Reject: Below 35%

The above are indicative score ranges.

Referee Comments:

1. **IMPORTANT: Authors should avoid lengthy descriptions.** This will provide assistance in reducing the paper-length. **The paper needs to be reduced to a maximum of 15 to 20 pages.**
2. More comprehensive evaluations are needed.
3. To further strengthen the paper, a more extensive evaluation considering various datasets or scenarios would enhance the research.
4. The **text labels in all the figures** used in the paper **are unclear**. Authors must develop original **image/figures** with **high resolution** for proper rendering of the final published paper and should not distort on zooming. The text labels in the images must be clearly visible.
5. **The research paper should be written in perspective of third person.** Words such as **'I' 'we' 'our' etc.** needs to be avoided.
6. The paper does not comply with the IJCA paper template. The **presentation** of the paper needs improvement. Different **fonts** and sizes are used throughout the paper. The **headings and sub-headings** are not numbered according to the template. Use IJCA paper template for final paper.

Final Checklist for authors:

- Perform Spell and grammar check.
- No word breaks at the end of lines.
- References appear consecutively in the paper.
